28th July 1993.

Dear Sir,

In accordance with S.31 (6) of the Highways Act 1980, we wish it to be recorded on the Definitive Map that the path shown and hatched in brown on the enclosed plan is private, and that any passage over it is permissive only. At no time in our thirty years of ownership has there been any intention on our part to dedicate any part of our property as a public right of way.

We have interrupted and resisted passage over our property on numerous occasions during our ownership, with the specific intention of preventing any prescriptive rights or private easements.

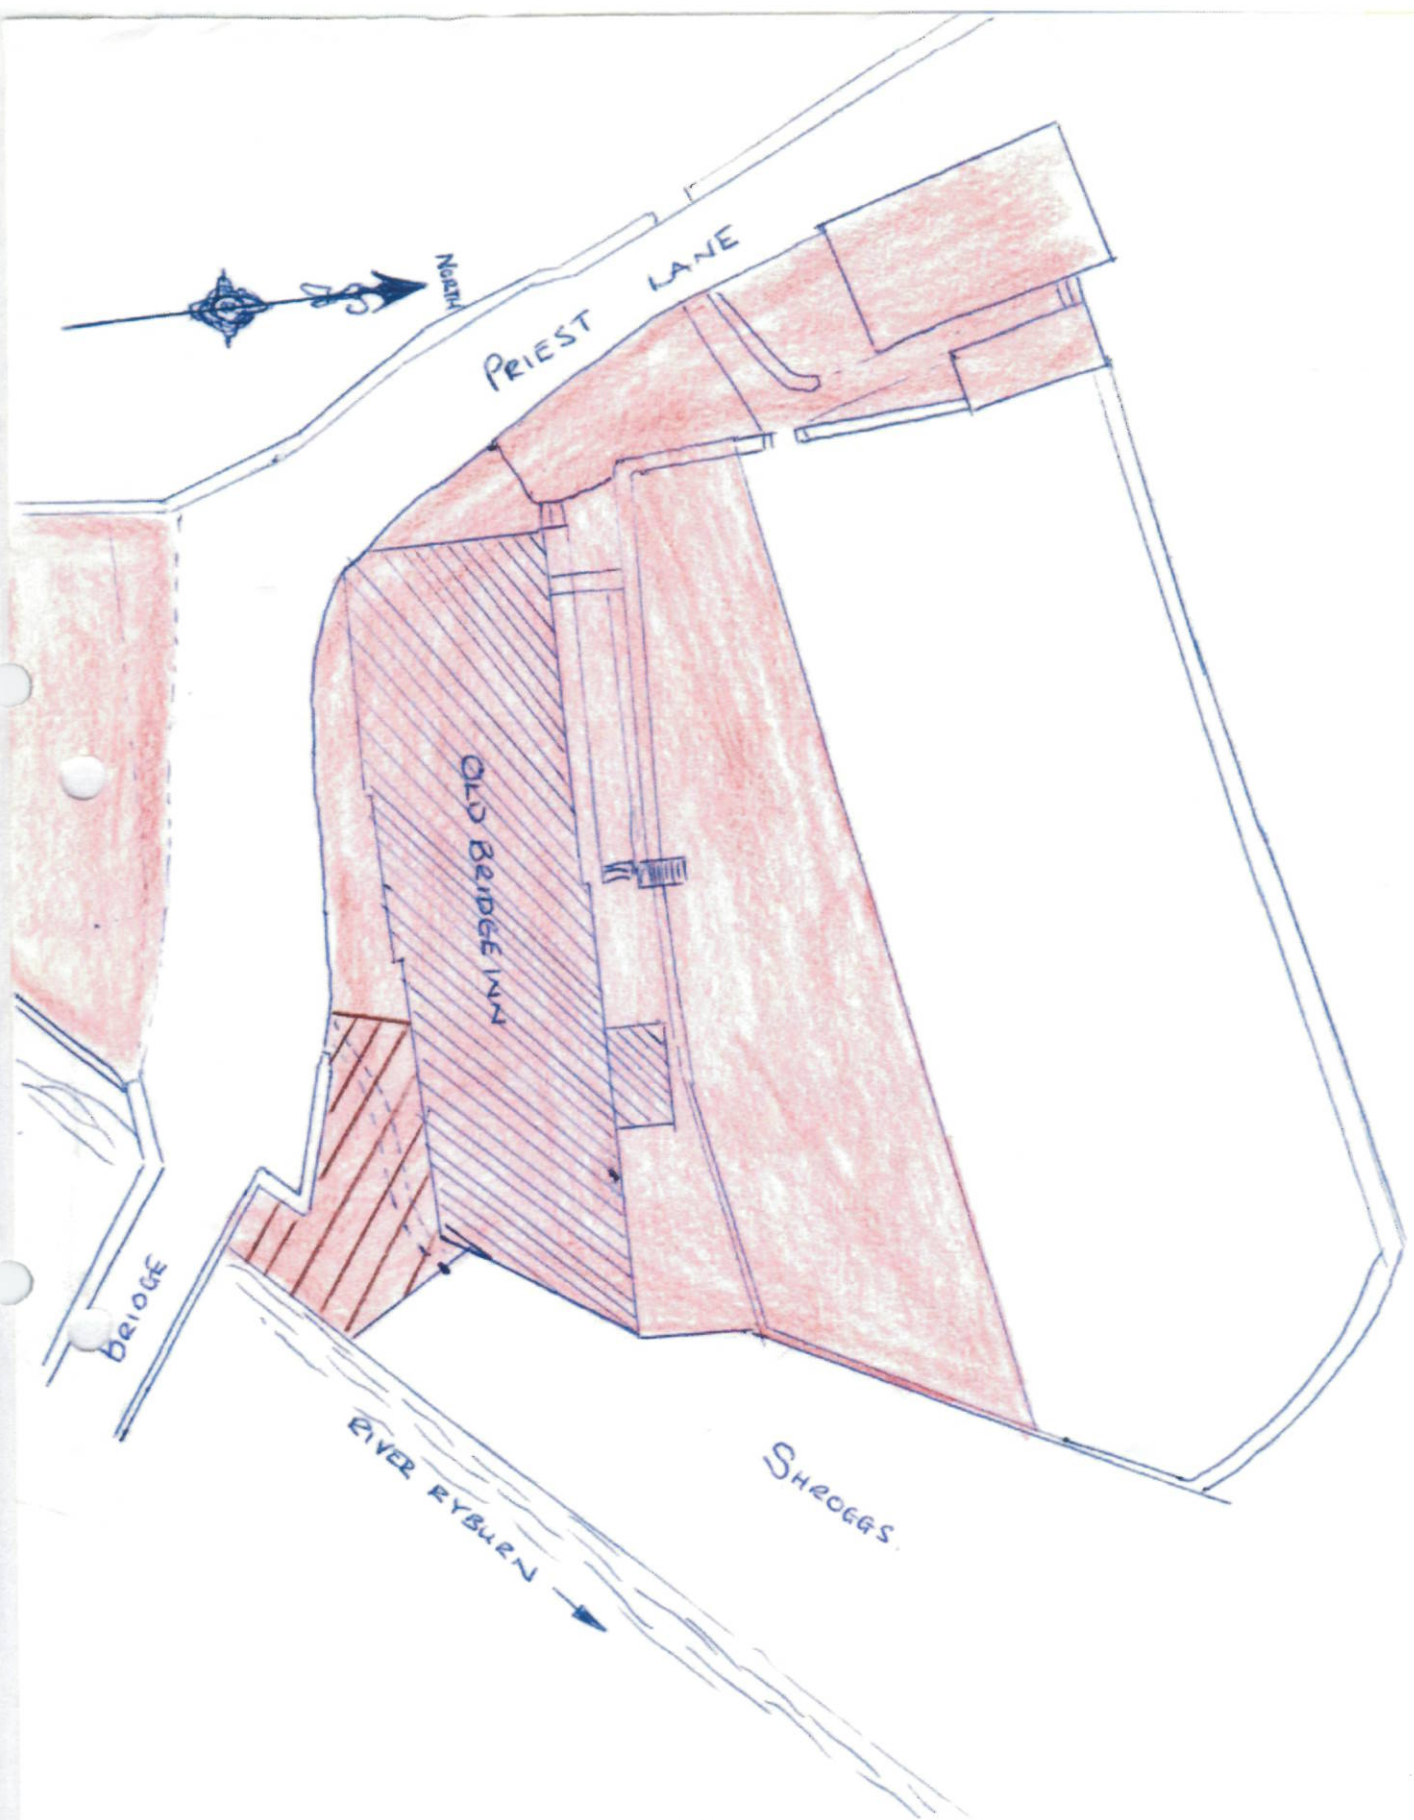

We shall continue to allow passage on foot in much the same way as do the Water Authorities along Permitted Footpaths over their properties, and shall allow access for any person(s) showing legal rights or easements.

Yours faithfully,

Ian.H.Beaumont,
Proprietor.

The Borough Engineer,
Northgate House,
Northgate,
Halifax.
