

Dear Parents and carers.

Today, we went out with the Community Wardens on Burtley Road. We went to monitor the speed of the traffic. The Speed limit there was 20MPH.

WE went back to school and did a tally chart. We scanned 36 cars with our speed gun and had a screen that told the driver how fast they are going.

20 of them went over the speed limit, 11 under the speed limit and 1 did the speed limit. Amazingly the highest was 35MPH.

20 people were still speeding, even though the wardens had yellow jackets on and our whole class was with them. If the wardens did not have jackets on maybe they would go faster.

We are writing to say "Please don't break the speed limit; it is there for a reason.

Safe Drive, Stay Alive!!
