

Children's Hospice Care

Focusing on helping a life-limited child live their life to the full they can provide medical care, psychological and spiritual support for the child and their family at no cost to them for as long as is necessary, including post bereavement support.

Hospice care treats the child, not the disease; focuses on the family, not the individual; and emphasizes the quality of life, not the duration.

Forget Me Not Children's Hospice

Forget Me Not Children's Hospice cares for families who have a child with a life shortening condition. We support these families in many different ways to make their lives just a little bit easier. This could be by giving them a break as we take the role of carer both in the hospice and in their home, or by providing hydrotherapy or music therapy. The care team spends time with brothers and sisters to give them the time and attention they deserve and are here for families, supporting them when they have to say goodbye to their child for the last time.

Martin House Children's Hospice

The aim of Martin House is to provide family led care for children with life-limiting conditions. It is a place where children, young people and their families can come to stay from time to time along their journey and find support, rest and practical help. It is a place of love and understanding, a peaceful place but one that can also have a lively, friendly atmosphere full of fun and laughter, where children and their families can enjoy the best quality of life.
