

COMMUNITY CLIMATE ACTION

STRAND	ACTION	ACTION SUMMARY	DATE	STATUS	ACTIVITY SUMMARY
Green Community Advice Hubs	CCA1	Establish green community advice hubs	2024	Work underway	There is a lot of green advice available locally and nationally. Work is underway to determine the best way to compile and deliver this advice to communities.
Spreading the Word	CCA2	Comms campaign to spread the message about Zero Carbon Calderdale	2026	On track	Regular updates are going out through the Council's climate emergency e-newsletter. Case studies of climate action are in development.
Spreading the Word	CCA3	Annual event to celebrate and inspire action	2024 onwards	On track	This theme group has not organised any events, however, multiple events are taking place across Calderdale and are organised by groups focused on climate action.
Building Sustainable Lives	CCA4	Building sustainable lives including what we eat and buy	2023	Work underway	Mapping work is underway to understand what is already taking place and how to promote this further to support wider shifts towards sustainable living.
Building Sustainable Lives	CCA5	Develop a green database of affordable and accessible sustainable choices	2026	Work underway	Mapping work will feed into this. There is also work in the green economy group to develop a local app for sustainable goods, services, and events.
Communities Taking Action	CCA6	Recruit a dedicated community support worker to support community climate projects	2024	Work underway	Scoping work taking place across voluntary and community sectors in partnership with the Council to look at opportunities for community engagement resources.
Communities Taking Action	CCA7	Develop inclusive climate champion programme	2026	Work underway	Inclusive climate champion programme would be delivered as an outcome of any funding secured for community engagement and community support worker role.
Neighbourhood Climate Action Plans	CCA8	Work with communities to develop neighbourhood climate action plans	2026	Work underway	Development of neighbourhood climate action plans would be an outcome of any funding secured for community engagement and community support worker role.
