

TRANSPORT & GETTING AROUND

Strand	Action	Action Summary	Date	Status	Activity Summary
All	TGA1	Undertake a resource gap analysis for transport and develop an investment strategy	2025 or sooner	Work underway	Discussions are underway to explore this issue
All	TGA2	Work in line with the Air Quality Strategy and reduce congestion	2023 onwards	On track	The Air Quality Strategy is being implemented in stages as projects are being developed. The Transport group will investigate the viability of developing a traffic reduction target.
Creating Streets for Everyone	TGA3	Explore opportunities to trial LTNs	2026	Work underway	Calderdale Council Transport officers have explored LTN best practice case studies.
Creating Streets for Everyone	TGA4	Identify what changes residents want to see for green and healthy streets, and associated funding opportunities	2023 onwards	Work underway	Council teams are reviewing funding opportunities, and any community funding opportunities are shared via the Calderdale Climate Newsletter.
Green Streets	TGA5	Calderdale Council to implement Green and Healthy Streets policy	2023	On track	The Green and Healthy Streets policy is being used by Highways, Major Projects and other Calderdale Council services. It is also coded into the Council's award-winning placemaking supplementary planning document.
Green Streets	TGA6	Communications campaign to promote street trees and NFM friendly gardens	2026	On track	Slow the Flow communicates on a regular basis. This is supported by Eye on Calderdale and the climate newsletter.
Public Transport	TGA7	Develop a vision and influencing asks around reliable and connected public transport infrastructure	2023 onwards	On track	The Partnership's Influencing Strategy has two 'asks' on public transport. The first one concerns bus franchising in West Yorkshire. The second is regarding the electrification of the Calder Valley Rail Line.
Public Transport	TGA8	Investigate the viability of remote working hubs in the 6 main towns	2026	On track	There are four shared working sites already in Calderdale being run by the VCS sector - one in Halifax (Elsie Whitley), one in Todmorden (TLCCH), and two in Hebden Bridge (the Egg Factory & Town Hall)
Electric Vehicles	TGA9	Produce a West Yorkshire electric vehicle (EV) Strategy	2024	On track	A West Yorkshire Strategy has been drafted and consultation has taken place. A final strategy will be published in the coming months by West Yorkshire Combined Authority.
Electric Vehicles	TGA9a	Produce a Calderdale electric vehicle (EV) Strategy	2025	On track	Working with the TGA9 will inform the development of Calderdale's EV Strategy.
Electric Vehicles	TGA9b	Work with private hire companies to increase electric vehicles	2023 onwards	Work underway	Current licensing contractual arrangements limit the opportunity to amend requirements for electric vehicles. The Partnership's draft Influencing Strategy has an 'ask' on grants for private hire vehicles.
Cycling & E-bikes	TGA10	Work with companies to increase uptake of cycle to work schemes and develop secure e-bike storage	2023 onwards	Work underway	Cyclescheme and West Yorkshire Travelplan are working on this, and there are links to Calderdale's Green Economy working group.
Cycling & E-bikes	TGA10a	Install secure cycle lockers	2023 onwards	Work underway	Cyclescheme and West Yorkshire Travelplan work on this, and there are links to Calderdale's Green Economy working group.
Cycling & E-bikes	TGA11	Investigate and trial rented bike schemes	2023 onwards	Work underway	Juiced Bikes attended the meeting in June to inform the group of work to develop an offer in Calderdale.
Networks and Infrastructure	TGA12	Cycling Strategy review	2026	Work underway	Work to look at strategic cycling and walking routes in Calderdale is underway and will go into a consultation phase in 2025
Networks and Infrastructure	TGA13	Produce a travel plan supplementary planning document (SPD)	2026	Not started	Calderdale's Planning team published an award-winning Placemaking and Design Guide SPD in 2024. The team are currently considering what additional planning policies should be adopted by the Council to assist progress towards achieving net zero. Amongst other SPDs being considered is one concerning Travel Planning, but no specific timetable exists for its preparation.
Car Clubs	TGA14	Promote and expand car clubs	2026	Work underway	Car clubs have experienced issues with accessing insurance products. Discussions are ongoing with new potential providers. Work is underway for POD car share scheme.
Mobility Hubs	TGA15	Implement shared transport hubs (previously called mobility hubs)	2025	Work underway	A public consultation is underway about proposals for three shared transport hub sites.
